### Ultrasound Training: Musculoskeletal

Friday, July 13, 2018

7:30 a.m.-4:00 p.m.

Walnut Creek Marriott

California Ballroom

### Agenda

|               |     |                                    |   |
|---------------|-----|------------------------------------|---|
| 7:30-8:30A    | 60m | <i>Breakfast</i>                   |   |
| 8:30-8:40A    | 10m | Introduction to Course and Faculty | Chris Salem<br>Robert Nied, MD  |
| 8:40-9:00A    | 20m | Shoulder Lecture                   | Shawn Hsieh, MD   |
| 9:00-10:00A   | 60m | Hands-on Practice<br>- Shoulder    | Shawn Hsieh, MD<br>Robert Nied, MD<br>Brita Zaia, MD<br>Gloria Rho, MD<br>Scott Meier, MD |
| 10:00-10:20A  | 20m | <i>Break</i>                       |   |
| 10:20-10:40A  | 20m | Knee Lecture                       | Gloria Rho, MD  |
| 10:40-11:40A  | 60m | Hands-on Practice<br>- Knee        | Gloria Rho, MD<br>Shawn Hsieh, MD<br>Robert Nied, MD<br>Brita Zaia, MD<br>Scott Meier, MD |
| 11:40A-12:40P | 60m | <i>Lunch</i>                       |   |
| 12:40-1:00P   | 20m | Soft Tissue Lecture                | Brita Zaia, MD  |
| 1:00-2:00P    | 60m | Hands-on Practice<br>- Soft Tissue | Brita Zaia, MD<br>Shawn Hsieh, MD<br>Robert Nied, MD<br>Gloria Rho, MD<br>Scott Meier, MD |
| 2:00-2:20P    | 20m | <i>Break</i>                       |   |
| 2:20-2:40P    | 20m | Injections Lecture                 | Scott Meier, MD   |
| 2:40-3:40P    | 60m | Hands-on Practice<br>- Injections  | Scott Meier, MD<br>Brita Zaia, MD<br>Shawn Hsieh, MD<br>Robert Nied, MD<br>Gloria Rho, MD |
| 3:40-4:00P    | 20m | Wrap-up and Conclusion             | Robert Nied, MD   |

## Course Objectives

The MSK Ultrasound Training course is designed for learners with a beginning-intermediate level understanding of ultrasound principles and practical experience with scanning. The emphasis of this course is to provide the skills and knowledge required to successfully use ultrasound to:

- *Perform correct scans of the shoulder, knee, and soft tissue*
- *Demonstrate correct use of the ultrasound probe and needle, such as would be used for giving MSK injections*
- *Recognize and diagnose common pathology of the shoulder, knee and soft tissue*
