Nguyen NT, Alabaster A, Simmons S, Ritterman Weintraub ML, Powell B. Opportunistic salpingectomy at the time of cesarean delivery: A retrospective cohort study, *J Clin Gynecol Obstet* 2019, 8(3); 70-76.

GRADUATE MEDICAL EDUCATION RESEARCH AT KAISER PERMANENTE EAST BAY (KP EBY)

Graduate Medical Education research is supported by Kaiser Permanente Northern California (KPNC) Division of Research through the Biostatistical Consulting Unit, where a team of highly experienced biostatisticians and lead programmer/analysts work with KPNC trainees in support of their research projects.

At Kaiser Permanente East Bay (Oakland), we have two fantastic fulltime research managers who support residents, fellows, and faculty in their research projects, including collaboration with the Biostatistical Consulting Unit, assistance with human subject training, study development, IRB protocols, and presentation of findings.
