WHO WE ARE

Our Mission
Challenge the status quo of family medicine education. Our mission is to train compassionate, full-spectrum family physicians competent in evidence-based medicine and comfortable navigating the evolving landscape of healthcare, with the aim of maintaining a standard of excellence in patient-centered care.

Our Vision
To train innovative future family physicians, leaders, and educators.

Our Values
Excellence, Collaboration, Innovation, Adaptability, Advocacy

ADDITIONAL OPPORTUNITIES

We are passionate about our community and proud to have a fellowship dedicated to community medicine! Our residents, along with our fellow, rotate through three different community clinics, serving the marginalized and vulnerable communities of San Jose, including Spanish-speaking, homeless, and refugee populations. We also work with a variety of organizations to provide our residents with advocacy and pathway mentorship opportunities.

PROFESSIONAL DEVELOPMENT

We recognize the importance of pushing full-scope beyond clinical skills to include professional development skills. As such, we have a dedicated rotation each year to cover topics that foster this development and build on each year, including:

- Communication/Presentation Skills
- Teaching/Coaching/Mentoring
- Giving and Receiving Feedback
- Practice Management
- Career Planning
- CV/Mock Interview Preparation

Practice Full Scope Family Medicine

Learn in a well-integrated system and bring these skills to future communities you serve!

COMMUNITY MEDICINE

SPORTS MEDICINE

PROFESSIONAL TRAINING

Our residents learn from Sports Medicine trained family physicians and orthopedic surgeons who serve as physicians for various teams, including the San Jose Sharks and the Santa Cruz Warriors.

ULTRASOUND

We have dedicated POCUS training and it is well integrated into our daily FM clinic. We have butterfly ultrasound available to check out and get some more practice at home!

2 Week Block Rotations
