KAISER PERMANENTE® | Undergraduate & Graduate Medical Education
Northern California

Introduction to Integrated Health Care

The summer program seeks rising second-year medical students with a strong passion for community health and a commitment to promoting culturally sensitive care.

Participants will experience an integrated healthcare system virtually:

- **Introduction to Community & Population Health**
- **Clinical Research & Research Design**
- **Preparing for Clinical Clerkships & Residencies**
- **Mentorship and Networking**
- **Health Advocacy**
- **Leadership Development**

Current first-year medical students who will become second-year medical students in the summer of 2027 are encouraged to apply. A **$500** award will be provided to those who successfully complete the program.

For more information and to apply please visit:
